**Print job does not come out**
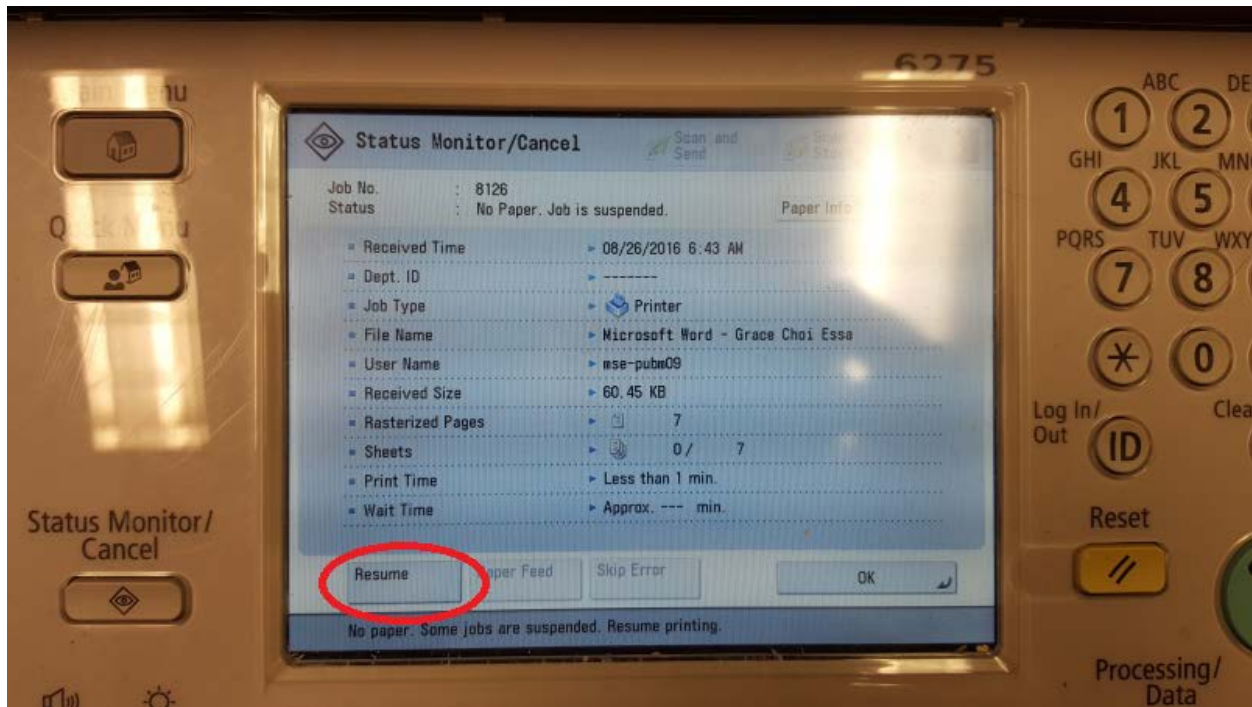

If the print job does not come out, and the screen displays "No paper" message; Processing/Data green light is on:

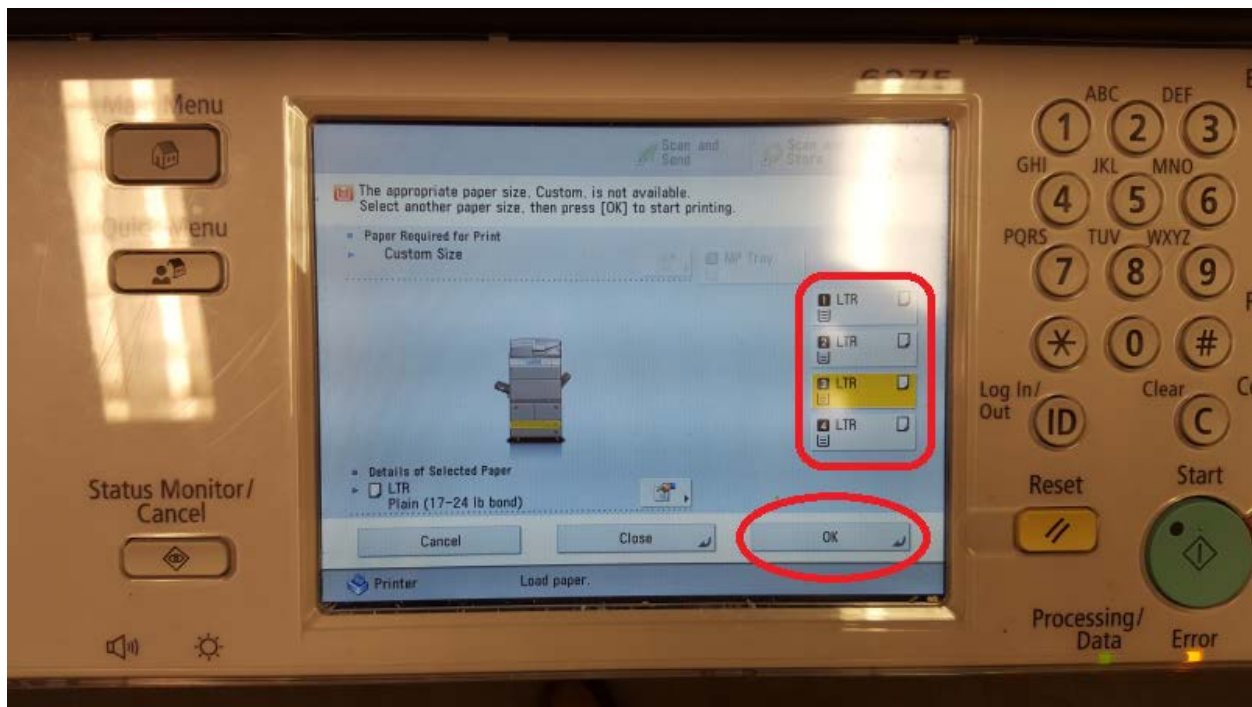

To resolve, press Status Monitor/Cancel button on the left lower part of the panel. This will open Job Status panel; make sure your job is highlighted, and choose "Details" button on the screen:

On the following screen, choose "Resume" button:

Then make sure that one of the not empty paper trays is highlighted, and choose "OK" button:

The job will print.

If there is still a problem, report it as usual.
