# Solstice Wireless Screensharing

1. Press Display On button on the wall control panel, to turn on Projector or Monitor.

2. Solstice wireless display screen should appear automatically.

3. Never used Solstice?
   - Open a web browser on your laptop and enter the IP address displayed on the screen. You will be prompted to download the Solstice client application. Once downloaded, run to install. The software should launch.
   - When prompted, enter your name to be displayed.
   - When prompted, enter the session Key shown on the Solstice wireless display screen.

4. Used Solstice but not at this location?
   - Start the software
   - Open the IP tab
   - Enter the IP address displayed on the screen
   - Click connect
   - When prompted, enter the session Key shown on the Solstice wireless display screen

5. Used Solstice at this same location?
   - Start the software
   - Click on the room name to connect
   - When prompted, enter the session Key shown on the Solstice wireless display screen
